# DIGITAL MARKETING

## DIGITAL OPTIMIZATION

Search Engine Optimization is the process of improving a website for search engines so it ranks higher in search results. It is a key part of online marketing because search is one of the primary ways that users navigate the web. Over 2.5 trillion searches were conducted worldwide across search engines such as Google, Bing, Yahoo, Baidu and Yandex.

## SOCIAL MEDIA MARKETING

Social Media is quickly becoming one of the most important aspects of digital marketing, which provides incredible benefits that help reach millions of customer worldwide. And if you are not applying this profitable source, you are missing out an incredible marketing opportunity, as it makes it easy to spread the word about your product and services.

## PAY PER CLICK ADVERTISEMENT

Pay Per Click Advertisement is one of the most effective ways to reach new customers and grow your business. It provides immediate traffic to your website.

## ONLINE REPUTATION MANAGEMENT

Online Reputation Management is the process of controlling what shows up when someone looks you up online. We'll show you how to identify and clean up any damaging content about you online, line negative Google results, risky social media posts and images as well as help you promote positive content that helps you look great online.

## BRAND PROMOTION

Brand Promotion is the way to inform remind, persuade convincingly, and influence the consumers to drive their decision towards purchasing the product or service under a brand. Marketing force of a company conducts brand promotion primarily, though the wholesalers and retailers also can do it.
